are all within reach. Today, he is working at the L.D.D. level in Galway business and is continuously achieving new milestones of success. This is why he has been chosen as Galway's Distributor of the Month.

Mohammad Sameem, who hails from the small village in Uttar Pradesh Sinpur Santha in Muzaffarpur District, says that

before joining the Galway business, he worked as a laborer in a private company in Gujarat. Despite his hard work, he could barely earn enough money to arrange two meals a day or basic needs. The needs were many

and the money in his pocket was very little, in such a situation, every desire and every need was dying under the grip of poverty. The family was large, so there was more hunger and less food. Life was barely getting by when an unknown friend came as a game changer of his life and introduced him to the Galway business. He told Shameem that there was no benefit in working as a laborer, as it could only provide a livelihood, not fulfill your dreams.

According to Shaikh Mohammad Sameem, I decided to watch the Galway business presentation. As I gradually understood the intricacies, features, and business plan of this business with proper

**How to Handle Rejection
Trust in the company and yourself**

Continuing his success story, Sameem says that when I started the Galway business, there was no one else earning in my house, and I was heavily in debt. The conditions at home started deteriorating, and people

in society began to mock me, many started speaking negatively. But I did not lose courage

and held on to the hands of my uplines and senior leaders. I took necessary training from approaching people to handling rejections. In this training, I learned and understood everything about Galway products essential for their retailing. As a result, my incentives started increasing. Gradually, as the team network grew, rank promotions also began.

This way, life, which started with debt, began to feel like it was on the path to success. After that, friends, Galway business completely changed my way of thinking and living. It felt like my dreams had wings. There was a time when I couldn't even afford to park a bicycle in my broken-down house and today, there are not one but four high-end model motorcycles worth lakhs parked there, including brands like Bajaj Pulsar, Hero Glamour, Yamaha FZ 2 and Royal Enfield Bullet. You can understand the power of the Galway business from this.

However, this was just the initial knock of Sameem's success. The real tale of success was yet to be written. After initial promotions and four branded bikes, Sameem built a luxurious house with the help of the Galway business, where every member of his family lives happily today. According to Sameem, Galway business

Success Mantra
Always focus on your goals

not only teaches you to make your dreams come true but also teaches you to give wings to your dreams and the skill to change the lives of your family and close ones. This is why I have transformed the Galway business into a family business today. Today, about 15 people from my family and close ones are working at the RD level in the Galway business, earning lakhs. Remember that the success of your downline is your own success. Today, I have a strong network, thanks to which I bought my dream car, Mahindra XUV 300.

Sameem further says that today, whatever I am is because of the Galway business. The secret of my success is the constant support of my team and the excellent training and guidance of our mentors and company founders. Today, I thank the Galway business and network for walking step by step with me, conducting the Galway business with the right ethical value, and especially thank

the company's founder-directors for creating such a system and business model where people from poor families like me are earning lakhs, traveling abroad, buying dream cars, and building luxurious houses. There are few businesses in the world that give everyone equal opportunities to make their dreams come true without any discrimination, like the Galway business. Not only this, it also teaches the skill to make those dreams come true.

I bought My Dream Car **Jawed Alam**

"Everyone dreams of owning their own car, and to achieve this dream, one must work hard. I, too, worked tirelessly in the Galway business to fulfill this dream, and finally, I made it come true. With my hard work and the help of the Galway car bonus, I purchased my favorite car, the Suzuki Fronx." This is the story of LDD Jawed Alam in the Galway business. Expressing his gratitude to Galway, he says that the excellent car bonus component in the business plan helped make his dream of owning a car a reality. Everyone should keep working towards their dreams and share their happiness with others!

Hard Work and Determination Unlock the Key to Success **Shrikant Pathak**

Our fellow Galwian from the Hardoi Zone, Shrikant Pathak, has taken advantage of the Galway Business car bonus to acquire a brand-new, sparkling Renault Triber Top Model! This is a living testament to your hard work, determination, and dedication. Your success fills us with pride and we extend our best wishes for your bright future. This achievement not only makes us proud but also demonstrates that when you work hard for your dreams, they come true. Wishing you safe and joyful journeys with your new car!

A Golden Tale of Success

Mangal Yadav

When my seniors used to tell me, "Have faith, what you have envisioned will come true!" I found it hard to believe that their dreams were fulfilled through direct selling, especially seeing their expensive cars. But once I boarded the massive ship called Galway, I was convinced that one day, I too would own a car. And friends, that day has finally arrived. With the car bonus from the Galway business, I have purchased a Mahindra Scorpio worth Rs. 20.49 lakh. This is the story of Mangal Yadav from bardhaman, West Bengal, who is an LDD in the Galway business. While receiving the keys to his new car, Mangal Yadav was accompanied by LDD Sudhir Kumar, Nawada Zone Franchiser Rajesh Kumar, Galway leaders Nirdosh Yadav, Santosh Yadav, Funtoosh Kumar, VC member Anu Kumar, Munna Kumar, Akhilesh Kumar, Rampravesh Kumar, and Pappu Kumar.

On behalf of the Galway family, we extend our heartfelt congratulations to him on his new car purchase.

Helping Your Family To Achieve Overall Wellness

As a Businessman, do you feel weak and tired in the evenings after daily business trips, meetings, and training sessions? As a housewife, do you often fall sick from doing daily household chores? Are your children experiencing body pain and low energy despite being at an age when they should be playing and having fun? Does your family not feel healthy and fit despite having all the conveniences?

If yes, then the actual reason is very clear that you need to pay attention to your health, diet, and essential nutrients. Many prestigious health journals and medical research studies indicate that most families in the country are suffering from weakness, fatigue, lethargy, and various new illnesses due to poor diet and lifestyle habits. Furthermore, deficiencies in specific nutrients, nutritional imbalances, weakened immunity, increased stress levels, higher amounts of toxic substances, and poor lifestyle choices are leading to low birth weight, reduced physical growth rates, decreased physical energy,

increased infections, low BMI, toxins, obesity, heart diseases, diabetes, and neurological disorders. A recent survey found that nearly one in two Indian adults, or about 46.2%, have a poor quality of life.

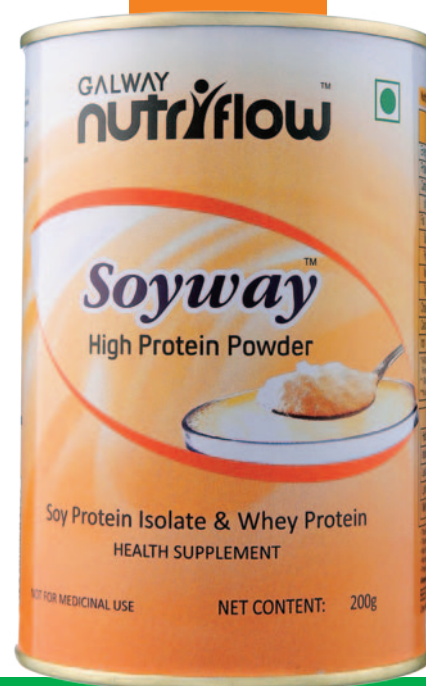

In fact, without proper nutrition and healthy lifestyle, your body will inevitably suffer from a lack of proper nutrition and energy. This raises the question of what can be done. In busy schedules and night-working lifestyles, it has been observed that people tend to eat unhealthy food outside, leading to insufficient nutrition for the body. This issue is particularly prevalent with protein deficiency. Health experts believe that consuming an adequate amount of protein is crucial to keeping the body healthy and active.

Why Protein is essential?

We all know that Protein is one of the essential nutrients for our health. Protein strengthens the muscles and immune system and 18-20% of our body weight is due to protein. Not only this,

For more information about the product, please scan the QR Code given below.

According to a survey by the Indian Market Research Bureau, Indians mistakenly believe that they get enough protein from their diet and that only those trying to lose weight need extra protein. In reality, protein is essential for every age group, and intake should be based on one's body weight.

The Indian Dietetic Association states that Indians get only **50%** of their required protein from their diet.

A medical survey found that only **9%** of people meet their required protein intake.

Inbody-IPSOS research indicates that **71%** of Indians have weak muscles.

A survey by the Indian Market Research Bureau in seven major cities revealed that protein is the most critical nutrient for damaged muscles.

According to the National Sample Survey, rural Indians consume 56.5 grams of protein, while urban Indians consume 55.7 grams.

Compared to essential standards, Indians are deficient in protein by up to **68%**.

protein also keeps the heart and lung tissues healthy. It helps in developing new enzymes and muscle tissues in the body. Additionally, it helps create muscle tissue and hormones, repairs muscle wear and tear, and aids in weight loss. From a newborn to a full-grown adult and elderly individuals, protein plays a vital role in body building and functioning for people of all ages and genders. When our body struggles with protein deficiency, it disrupts bodily functions. According to a medical journal, understanding the importance of protein reveals that the process of old cells being destroyed and new cells being created constantly occurs in the human body. A healthy human body produces about 330 billion new cells daily, meaning 330 billion old cells are destroyed and replaced with new ones each day. Since all these cells are made from protein, protein is a crucial element for the body.

According to the National Institute of Nutrition, an adult male requires about 50 grams of protein daily, while a female needs 46 grams. Additionally, a pregnant woman and a lactating mother should have a higher protein intake, approximately 72 grams per day.

Soy and Whey Protein

It's important to understand that there are various types of protein, with soy protein and whey protein being considered excellent sources. If you have a dairy allergy or follow a vegetarian diet, these proteins are healthy alternatives to meat. They contain amino acids that support muscle health and act as energy boosters. Additionally, these proteins help in weight loss, keeping the heart healthy, and reducing bad cholesterol levels. They are also rich in antioxidants

and omega-3 fatty acids.

Galway Nutriflow Soyway Protein Powder

To balance your protein intake and provide you with essential nutrition, we present Galway Nutriflow Soyway Protein Powder. This protein powder is a healthy and nutritious option for your entire family. Completely vegetarian and free from adulteration, Soyway Protein Powder is an excellent blend of high-quality soy protein isolate, whey protein, and easily digestible maltodextrin.

It is an excellent choice to meet the protein requirements of you and your family.

All nine essential amino acids present in it fulfill your body's critical needs. It is a dietary supplement suitable for the entire family. By providing the right amount of protein and the amino acids within it, Soyway Protein Powder aids in the creation of new tissues and cells. It also boosts the immune system, enhancing the growth and development of the body. With 82% protein and all nine essential amino acids, its Protein Digestibility Corrected Amino Acid Score (PDCAAS) is 1. Friends, PDCAAS is a standard set by WHO to evaluate the quality of protein from various food sources, making this product of the highest quality. Overall, this excellent product compensates for the protein deficiency in our diet, providing us with energy and immunity.

Anyone can consume it. Its method of consumption is also very easy. Take one spoon (about 10 grams) of soy protein powder in a glass. Add water, juice or milk to it and mix well. You can add sugar or any other sweet substance according to taste. Soy powder can also be mixed in flour, vegetables and pulses etc.

The Secret of My Energetic Life

Hello, I am a housewife and a mother of two children. Only a mother can understand how to take care of children along with managing the house. My health was deteriorating after pregnancy, I was feeling less hungry and lack of energy in my body. When my husband told me about the qualities of Galway Nutriflow Soyway Protein Powder that it can be used to drink it by mixing it in milk, water and also by mixing it in flour to make rotis, I liked it very much. Ever since I have started using it, I feel less tired and my energy level always remains high.

EARN DOUBLE PROFIT FROM OKRA

Farming with Galway Krisham Products

In our country, okra is a popular vegetable. It is mainly grown for food. Okra is a major vegetable during the summer and rainy seasons. It provides the body with plenty of vitamins A, B, C, proteins and minerals. The roots and stems of okra are used to purify jaggery and sugar. Its fibrous stem skin is used in paper mills. Okra is a very important crop from a nutritional perspective. It is considered a source of carbohydrates, proteins, vitamins, enzymes, calcium, potassium, and many other nutrients.

The best temperature for growing okra is between 25 to 30 degrees Celsius. Today, with new techniques and excellent agri-products, farming methods have changed. Farmers are now earning good profits by growing cash crops with advanced techniques and products like Galway Krisham. Okra is one such crop that allows farmers to earn millions.

In this issue, we will tell you how to increase your okra yield and earn more profit using Galway Krisham's excellent

products.

The benefits of okra:

- It can act as an antioxidant.
- It helps fight fatigue.
- It has qualities that can help combat diabetes.
- It can act as an antibacterial agent.
- It helps fight tumors.

Now, let's understand how Galway Krisham products can enhance the yield of your crops.

Galway Krisham Products and Their Application Methods for Plant Growth:

■ Field Preparation: During field

preparation, it's beneficial to treat the soil. Take 100 kg of well-decomposed cow dung, vermicompost, ash or crumbly soil and mix it with 1 liter of G-Bio Phosphate Advanced to prepare a mixture. Keep this mixture in the shade for 24 hours. After 24 hours, spread it in the field and plow the field.

■ Seed Treatment:

Always remember that seed treatment can be done in two ways, with water and without water.

Note: Seeds smaller than or equal to the size of wheat should be treated without water.

Take 1 kg of okra seeds, mix them with 10 ml of G-Bio Phosphate Advanced, and treat the seeds. Dry them in the shade for 30 minutes before sowing.

■ **Fertilizer Application:** Take the required amount of DAP and mix it with 10 kg of G-Sea Power + 4-8 kg of G-VAM. Sprinkle this mixture per acre

DOUBLED OKRA YIELD WITH GALWAY KRISHAM

Hello, farmer friends. I was always troubled by the low yield and pest problems in my okra crop. This summer, I sprayed my crop with a solution of Galway Krisham G-Sea Liquid and G-Bio Humic. The results were clearly visible: the plants grew healthy and tall and the fruits were pest-free and produced in double the usual quantity.

in the field.

■ **Urea Application:** Take the required amount of urea and mix it with 10 kg of G-Sea Power. Additionally, mix 200 ml of G-Sea Liquid + 200 ml of G-Bio Humic for

better crop growth. Apply this mixture per acre in the field.

■ **During Flowering and Fruiting:** Ensure the field has good moisture when spraying during flowering and fruiting. Before spraying, make sure 60-70% of the flowers and fruits have appeared. Prepare a

solution of 10-15 ml of the product in 15 liters of water and spray. Spray either in the morning or evening and avoiding strong sunlight or high temperatures.

■ **During Fruit Ripening:** Before the seeds start ripening, prepare a solution of 10-15 ml of G-Amino+ in a 15-liter tank and use it as a spray.
